PAULA KUNNING

Full Stack Developer · React, Next.js, TypeScript, Node.js — Córdoba, Argentina

paulakunning.com/en · github.com/paulakunning · linkedin.com/in/paula-kunning · paulakunning@gmail.com

PROFESSIONAL SUMMARY

Full stack developer working with React, Next.js, TypeScript and Node.js. I have 3+ years of experience building websites for clients: 2.5 years at a digital marketing agency, where I built 10+ sites, and now freelance for clients in Argentina and abroad. I design interfaces in Figma and build them myself, so I can take a project from start to finish. Now learning Python and LLMs to build AI-powered apps.

SKILLS

Front-End: React · Next.js · TypeScript · JavaScript · HTML5 · CSS3 · SCSS · Tailwind CSS

Back-End: Node.js · Express · REST APIs · MongoDB · Zod

Testing & Tooling: Vitest · Testing Library · Playwright · Git · GitHub Actions · Vercel · Claude Code

Design: Figma · UI Design · Responsive Design · Accessibility (WCAG) · Prototyping

CMS: WordPress · Elementor Pro · Bricks Builder · WooCommerce · PHP · MJML

EXPERIENCE

Aster Estudio — Freelance Web Developer & Designer *Remote · Jul 2025 – Present*

- Build client websites with Next.js and TypeScript, and with WordPress for clients who need to edit content themselves.
- Design every project in Figma, from wireframes to final UI, and build it responsive and accessible.
- Work directly with clients: proposals, feedback rounds and maintenance. 5.0 rating on Upwork.

Canal Cero — Web Developer (WordPress & Front-End) *Remote · Mar 2023 – Jul 2025*

- Built and maintained 10+ corporate websites for agency clients, turning Figma designs into responsive pages with WordPress, PHP, HTML, CSS/SCSS and JavaScript.
- Rebuilt tecnofast.com.pe in Bricks Builder and collaborated with the back-end team on its custom quote calculator, integrating and finishing the front end.
- Built pages and templates with Elementor Pro and Bricks Builder, adding custom HTML, CSS/SCSS, JavaScript and PHP where needed.
- Worked in a team of developers and designers: took on assigned developments independently and collaborated on larger ones; used GitLab on some projects.
- Maintained and troubleshot client sites, worked on WooCommerce stores, and built responsive email templates with MJML.

SELECTED PROJECTS

Qué vemos hoy (in progress) — Design + development · Next.js, React, TypeScript, Tailwind — bilingual TV show finder: pick a mood or genre and get real shows from TMDB, with a detail page for each one; server-side API client, unit and E2E tests, CI with GitHub Actions (code)

Weather App — Design + development · Next.js, React, TypeScript, Tailwind — bilingual weather app where the sky is computed from the real sun position; Zod-validated API data, accessible controls, unit and E2E tests, CI with GitHub Actions (code)

Don Higinio — Design + development · Figma, WordPress — corporate site for a wholesale distributor

Factchequeado Lab — Design + development · Figma, WordPress — AI innovation lab landing page, client-managed content

GEA Logistics — Development + ongoing maintenance · WordPress — built from the client's design
